HOW TO INCREASE YOUR CREDIT SCORE TO OVER 740 POINTS; PREPARE FOR A BANK BUSINESS LOAN!

Have you checked your credit score recently? If not, do not be surprised if you are like millions of Americans who have discovered that their score is now lower, even as much as 100 points lower. One young man recently discovered that his score had dropped 41 points despite the fact that he had not made a late payment in over 12 years, he had maintained an extremely low utilization of his revolving credit, and he had not acquired any new credit in over a year. So, he, like many of you, was left wondering why? Whereas the major factors used in determining our credit scores have not changed, the formula or method for determining your score does change frequently. These changes as well as the "basics" and many legal "tricks" on "How to Increase Your Credit Score to Over 740 Points" are revealed in this informative presentation by Bob Moore. Other items discussed include how many credit cards you should have and the proper way to use these cards, what to do with credit cards you have had for a long time but you no longer use, how to read and understand credit reports, how to obtain your credit reports and scores without paying for them, and the factors that are used in calculating our FICO, Beacon, or Vantage scores. You will learn how to raise your score simply by the way you use your credit cards, treat inquiries, make your payments and carry balances. Using several proven methods, your credit score could increase by 50-100 points or more within 60 days. Make plans to attend now!

WHY SUCCESSFUL BUSINESSES ARE SUCCESSFUL

Too often, we hear that "luck" is the main reason a business fails or succeeds. This could not be farther from the truth as successful businesses share common traits and luck is not one of them. After being part of an almost three-year project researching hundreds of small businesses in North Carolina, South Carolina and Virginia, the presenter created this presentation that reveals common traits successful small businesses possess. Small businesses that possess these traits have shown growth and produced handsome profits for their owners. This presentation is designed for the individual thinking of opening a new business as well as existing entrepreneurs who seek the inside secrets of how to make their business better with greater sustainability. Opening and operating a small business involves a huge investment of time, talent and resources. Ensure the success of your business and your personal success by planning to attend this informative and enlightening event.

IDENTIFYING AND AVOIDING THREATS TO YOUR BUSINESS

There are literally hundreds of threats that can affect a small business. A new big box store competitor, key employees leaving, rising gas prices, recessions, health problems, new legislation and the list goes on and on. Most existing and new business owners either lack the ability or never “slow down” long enough to identify possible internal and external threats to their businesses. Often, by the time a threat is realized, damage to the business has occurred. This seminar will reveal many common threats small businesses face, assist entrepreneurs in learning how to determine, if possible, threats currently exist or if they could exist in the near future and most importantly, how to avoid these threats. Ensure the success and sustainability of your business by gaining the information presented in this seminar.

BOOTS TO BUSINESS

Veterans and military personnel returning from active duty are wonderfully over-represented in entrepreneurship. One in seven veterans is either self-employed or already a small business owner. Roughly one quarter of transitioning service members are interested in starting or buying their own business. One of our most important roles is supporting those men and women who have returned home from active duty and are looking to start a small business. We offer a variety of programs and services specifically designed to do just that.

*****THIS SEMINAR IS OPEN ONLY TO ACTIVE DUTY, THEIR DEPENDENTS AND VETERANS OF THE US MILITARY.*****
