Provide narrative for analysis of program enrollment. (Is enrollment increasing or decreasing? What are possible reasons for increase/decrease? Describe any action plans to improve or increase program enrollment.)

Enrollment decreased slightly from 2020-2021, but this was most likely due to Covid. From 2021-2022, there was a slight increase, and it is expected to continue to rise as we continue to move forward with recruiting, collaborating and offer more hybrid and online courses.

Provide narrative for analysis of program retention data. (Based on the data, provide a narrative of your analysis of retention. Indicate factors that may have affected your retention. State any changes you plan to make to improve retention.)

In the area of retention, the Baseline, Standard and Target have all been exceeded. Faculty have become more intentional in identifying students who are struggling and working with them individually to be successful in their courses. Assignments have been broken down into smaller parts when needed, and several courses have moved from completely online to hybrid so that students have a face-to-face component with instructors.

Provide narrative for analysis of completers. (Based on the data, provide a narrative of your analysis of completions. Indicate factors that may have affected your completions. How might you increase the number of completers in your program?)

The program did not meet the Baseline, Standard and Target for completers, and the numbers have dropped. This seems to be a result of the drop in number of students attending college during the 2020-2021 school year due to Covid.

2023-2025 Action Items:

| Item | Action Items (What actions can be taken to increase student completion in your program?) | Assessment of Action Items (How will you assess the results of action items?) |
|------|--|--|
| 1 | Use student data to plan courses that better meet the needs of student schedules so that they can attend classes for the entire semester or complete courses in condensed courses. | Use of Tableau and internal tracking of course success and retention sheets. |
| 2 | Utilize phone calls and emails to remind students to apply for graduation in a timely manner. Implement reminders in the Capstone Course as well. | Document contacts with students in a spreadsheet. |

Approvals

- 1. Using DocuSign (electronic signature), the Office of Institutional Effectiveness (IE) will review and approve the Program/Service Outcome Assessment when completed by the responsible program/service personnel.
- 2. Using DocuSign (electronic signature), appropriate Department Chair, Division Dean, Director, and/or AVP is asked to read and approve the Program/Service Outcome Assessment.
