Provide narrative for analysis of program enrollment. (Is enrollment increasing or decreasing? What are possible reasons for increase/decrease? Describe any action plans to improve or increase program enrollment.)

The target enrollment for the Non-Licensure Track has increased since the previous year. Students are seeing the need for higher education degrees with opportunities to work in the public and private schools, and therefore choosing tracks that will allow them to transfer to a college or university without losing their AAS credits.

2024-2025 Action Items:

Item	Action Items (What actions can be taken	Assessment of Action Items (How will you assess the
	to increase enrollment in your program?)	results of action items?)
1	Increase attendance at potential recruiting events by attending five events not previously participated in. Focus will be on students who want to prepare to obtain a bachelor's degree or higher in Education to teach K-3 rd Grade.	Track each event attendance using a spreadsheet or Word Document for each faculty member and the potential number of students reached.

Outcome #2: Retention

Item#	Action Items: (Action item identified in the	Results / Use of Results: (Provide results of the action
	2022-23 program outcome year-end	item identified. Was the action item successful? If not,
	report.)	did you want to continue this action item going
		forward? If so, please include this action item in the
		2024-2025 action items table below.)
1	Implement in the courses time management skills and add assignment deadlines with grade deductions. (Assessed by: Increase in assignments completed by deadlines stated in the course syllabi, track completion with grade sheets.)	Time management skills and assignment deadlines with grade deductions seemed to help students get work turned in with a timelier submission.
2	Faculty will meet on a regular basis to discuss strategies to assist students who are struggling. (Assessed by: Schedule twice a month meeting with program faculty to review overall student grades to determine if strategies are working well.)	Meetings were held by departmental faculty twice monthly to discuss challenges students seemed to face in their courses. We did not find that this improved retention significantly, but it did help to discuss as professionals and work on skills to help students be more prepared.

Provide narrative for analysis of program retention data. (Based on the data, provide a narrative of your analysis of retention. Indicate factors that may have affected your retention. State any changes you plan to make to improve retention.)

Many of the ECE students are part-time and unable to finish the program as a full-time student. Many of them work full time and have families and may have to delay taking classes due to work schedules and family demands. The ECE courses are offered alternately between daytime and evening classes when offered as hybrid courses, and the changes in time offerings often cause students to delay in taking classes.

2024-2025 Action Items:

Item	Action Items (What actions can be taken	Assessment of Action Items (How will you assess the
	to increase program retention?)	results of action items?)
1	Faculty will track and follow up with	Faculty will track non-returning students and document
	students who take a break from classes	those who come back to finish degree requirements.
	and encourage them to follow up with the	
	Program to determine a schedule that will	
	work for them. Emails and the Postal	
	Service can be used to send letters to	
	students, along with phone calls to	
	encourage enrollment.	

Outcome #3: Completers (unduplicated by highest level of attainment)

Action Items from 2022-23 Program Outcome Year-End Report:

manner. Implement reminders in the

Capstone Course as well. (Assessed by: Document contacts with students in a

Provide narrative for analysis of completers. (Based on the data, provide a narrative of your analysis of completions. Indicate factors that may have affected your completions. How might you increase the number of completers in your program?)

Many of the ECE students are part-time and unable to finish the program as a full-time student. Many of them work full time and have families and may have to delay taking classes due to work schedules and family demands. The ECE courses are offered alternately between daytime and evening classes when offered as hybrid courses, and the changes in time offerings often cause students to delay in taking classes.

2024-2025 Action Items:

Item	Action Items (What actions can be taken to increase student completion in your program?)	Assessment of Action Items (How will you assess the results of action items?)
1	Faculty will track and follow up with students who take a break from classes and encourage them to follow up with the Program to determine a schedule that will work for them. Emails and the Postal Service can be used to send letters to students, along with phone calls to encourage enrollment.	Faculty will track non-returning students and document those who come back to finish degree requirements.

Approvals

- 1. Using DocuSign (electronic signature), the Office of Institutional Effectiveness (IE) will review and approve the Program/Service Outcome Assessment when completed by the responsible program/service personnel.
- 2. Using DocuSign (electronic signature), appropriate Department Chair, Division Dean, Director, and/or AVP is asked to read and approve the Program/Service Outcome Assessment.
