

**Program Outcomes Assessment Follow-Up  
2022-2023 Program Outcome (PO) Year End Reporting Form**

In response to SACSCOC 8.2, *“The institution identifies expected outcomes, assesses the extent to which it achieves these outcomes, and provides evidence of seeking improvement based on analysis of the results ...”*

**Name of Program:** Automotive Systems Technology – GM-ASEP

**Outcome #1: Enrollment (unduplicated)**

**Action Items from Program Review:**

Item #	Action Items: <i>(Action item identified in the 2021-22 program review.)</i>	Results / Use of Results: <i>(Provide results of the action item identified. Was the action item successful? If not, did you want to continue this action item going forward? If so, please include this action item in the 2023-2025 action items table below.)</i>
1	Increased awareness of the career needs (Assessed by: Social media presence, encouraging our manufacturer partners to increase awareness, host events for high school teachers so that they are aware of our offerings. Assessment comes from seeing enrollment increase.)	We are confident that the recruitment techniques are successful and we intend to continue with those going forward.
2	Increased recruitment activities. (Assessed by: Continue to encourage WCC to hire additional recruiters that can be off campus to engage prospective students. Current faculty workloads limit the time away to do these activities. Assessment comes from seeing enrollment increase.)	We will continue to encourage WCC to hire a recruiter that can target various populations for recruitment into our programs.

**Baseline:** 28 # *(Average of total enrollment for the last three years – 2018-19; 2019-20; 2020-21)*

**Standard:** 24 # *(12 students per class as suggested by General Motors X2 (1<sup>st</sup> year and 2<sup>nd</sup> year)*

**Target:** 30 #

**Provide narrative for analysis of program enrollment.** *(Is enrollment increasing or decreasing? What are possible reasons for increase/decrease? Describe any action plans to improve or increase program enrollment.)*

Enrollment is steady. We believe recruitment activities that we have repeated over the years have left a legacy and is paying off.

**2023-2025 Action Items:**

Item	Action Items <i>(What actions can be taken to increase enrollment in your program?)</i>	Assessment of Action Items <i>(How will you assess the results of action items?)</i>
1	Increased awareness of the career needs	Social media presence, encouraging our manufacturer partners to increase awareness, host events for high school teachers so that they are aware of our offerings. Assessment comes from seeing enrollment increase.
2	Increased recruitment activities.	Continue to encourage WCC to hire additional recruiters that can be off campus to engage prospective students. Current faculty workloads limit the time away to do these activities. Assessment comes from seeing enrollment increase.

**Outcome #2: Retention****Action Items from Program Review:**

<b>Item #</b>	<b>Action Items:</b> <i>(Action item identified in the 2021-22 program review.)</i>	<b>Results / Use of Results:</b> <i>(Provide results of the action item identified. Was the action item successful? If not, did you want to continue this action item going forward? If so, please include this action item in the 2023-2025 action items table below.)</i>
1	Increase awareness of the differences in the Automotive Programs at WCC prior to collecting retention data. (Assessed by: We will see the retention data better and more accurately reflect the Associate Degree retention.)	The admissions process has not displayed any improvement in the process, thus the data continues to be flawed.
2	Increase awareness of the career fields that directly compete with our programs (Assessed by: We will continue to push for better wages within the automotive sector and encourage employers to be involved with the NC Apprentice program.)	Our employers have been made aware of the wage disparities and have promised to improve. We believe there has been some movement. The Apprenticeship NC program has not gained any traction in our program areas.

**Baseline:** 51.7 % *(Average of last three years – 2018-19; 2019-20; 2020-21; program retention)*

**Provide narrative for analysis of program retention data.** *(Based on the data, provide a narrative of your analysis of retention. Indicate factors that may have affected your retention. State any changes you plan to make to improve retention.)*

By the numbers, retention is poor, although improved over the last 3 years. We believe there are 3 primary reasons for the poor retention:

- 1- Students enter the program unaware of the differences between Automotive Systems Technology- GM ASEP and Automotive Systems Technology- ATEP. During the admissions process, the students are not made aware of the differences in the programs and are placed in either of the two majors as if they are interchangeable so when the students are sorted in the spring semester to the correct program by the Automotive Faculty, the retention data becomes flawed. Changes suggested- try to sort the students out before the IE department gets the data. It would be nice if the Councilors could understand how our programs work and guide the students to the correct major prior to the data being collected.
- 2- Students that are grossly unprepared for the technical aspects and requirements of the programs drop out after the first semester (Fall) after they have declared the Associates Degree as their major. Although they are completers of the Certificate, their majors show they are drop outs. Changes suggested- do not collect data for GM ASEP Associates Degree enrollment and retention for Fall-to-Fall. Change it Spring-to- spring.
- 3- Students change careers or enter other disciplines requiring a similar skill set. Students tell us when they are wanting to change careers that they are able to get financial reward quicker in certain other fields of work. Changes suggested- due to the economic climate, many fields of work are offering sign-on bonuses and other competitive wages without the investment in college. It is commonplace for students to discover this after they have started our programs at WCC. Changes suggested- continue to encourage our employers to offer competitive wages to our students as they complete WBL and subsequently, a competitive starting wage at graduation.

#### **2023-2025 Action Items:**

<b>Item</b>	<b>Action Items</b> <i>(What actions can be taken to increase program retention?)</i>	<b>Assessment of Action Items</b> <i>(How will you assess the results of action items?)</i>
1	Increase awareness of the differences in the Automotive Programs at WCC prior to collecting retention data.	We will see the retention data better and more accurately reflect the Associate Degree retention
2	Increase awareness of the career fields that directly compete with our programs	We will continue to push for better wages within the automotive sector. During Advisory Committee meetings, we will encourage the employers to set a minimum starting wage to compete with other industries.

**Outcome #3: Completers (unduplicated by highest level of attainment)****Action Items from Program Review:**

<b>Item #</b>	<b>Action Items:</b> (Action item identified in the 2021-22 program review.)	<b>Results / Use of Results:</b> (Provide results of the action item identified. Was the action item successful? If not, did you want to continue this action item going forward? If so, please include this action item in the 2023-2025 action items table below.)
1	Change the way the students are coded upon entry (Assessed by: If the students are correctly coded, a higher number of them will show as completers. (See retention narrative)	Nothing has changed here. We will continue to suggest that the data collection point be changed.
2	Increase student awareness of the importance of obtaining the degree. (Assessed by: Students who value the degree will show as completers.)	We have seen the students put forth more effort to finish the program on time.

**Baseline:** 3 # (Average of total completers for the last three years – 2019-20; 2020-21; 2021-22)

**Standard:** 20 #
