2023-2024 Program Outcome (PO) Year End Reporting Form**

In response to SACSCOC 8.2, *“The institution identifies expected outcomes, assesses the extent to which it achieves these outcomes, and provides evidence of seeking improvement based on analysis of the results ...”*

Name of Program: Sustainable Agriculture Technology

Outcome #1: Enrollment (unduplicated)

Action Items from 2022-23 Program Outcome Year-End Report:

Item #	Action Items: <i>(Action item identified in the 2022-23 program outcome year-end report.)</i>	Results / Use of Results: <i>(Provide results of the action item identified. Was the action item successful? If not, did you want to continue this action item going forward? If so, please include this action item in the 2024-2025 action items table below.)</i>
1	Use social media to highlight student (both current and former) and advertise events and exciting news happening in the program. (Assessed by: Current and former students will be contacted and interviewed monthly for social media posts.)	This has not been successful. It is difficult to get students and graduates to give me career status updates and I sometimes forget to take pictures when I am out on lab sites doing work that could be seen through social media.

Provide narrative for analysis of program enrollment. *(Is enrollment increasing or decreasing? What are possible reasons for increase/decrease? Describe any action plans to improve or increase program enrollment.)*

Enrollment has held steady through 2022-23. One possible reason is that we have been able to have many on campus tours showing off the student projects in the green machine, greenhouse and garden.

2024-2025 Action Items:

Item	Action Items <i>(What actions can be taken to increase enrollment in your program?)</i>	Assessment of Action Items <i>(How will you assess the results of action items?)</i>
1	Work with employers and the department of labor to provide students/apprentices that will be mutually beneficial for everyone involved.	We will track the number of students who are aligned with employers through apprenticeships and work-based learning.

Outcome #2: Retention

Action Items from 2022-23 Program Outcome Year-End Report:

1	Active advising of students. (Assessed by: Students are contacted regularly through Moodle, text, and email. This communication happens weekly with those who are in danger of failing the course. As soon as priority registration emails are sent out from the college, I send a reminder via email to each class to remind them to see their advisor before their priority registration is open..)	This is effective. Students are contacted as soon as attendance or grade issues are evident. Students are also contacted during enrollment periods and I am flexible in the way that I advise.

Provide narrative for analysis of program retention data. *(Based on the data, provide a narrative of your analysis of retention. Indicate factors that may have affected your retention. State any changes you plan to make to improve retention.)*

I honestly have no idea why retention is so low. I do the same things with my Agribusiness students and that program has a 90% retention rate. I know that active advising works well, it's just life situations that affect the sustainable ag students. Also, the enrollment is so low, when you lose one or two, the percentage is a lot greater.

2024-2025 Action Items:

Item	Action Items <i>(What actions can be taken to increase program retention?)</i>	Assessment of Action Items <i>(How will you assess the results of action items?)</i>
1	Active advising of students.	Students will be contacted by email and text message when they reach a danger zone, academically or attendance. Students will also be contacted when registration is open and will be advised based on their life situations.

Outcome #3: Completers (*unduplicated by highest level of attainment*)

1	Active advising. (Assessed by: Students will be advised when they are nearing completion of a certificate and/or the AAS degree. Each student’s plan is completed on paper to give them a visual of their progression. Self-service is also helpful, and plans will begin to be built within each new student’s digital file.)	Students are contacted around midterm to discuss their upcoming registration or potential graduation. An evaluation is ran through Colleague to ensure all requirements are met or at least planned.
